COMMITMENT LETTER

ENSURING THE QUALITY AND THE SAFETY OF YOUR CHOICE.

The catalogue hi!dea™ was designed under the concept that the promotional products should meet high safety and quality standards and must be socially and environmentally responsible. In this perspective, all the items in this catalogue have been developed in order to comply with the European rules and standards. This fact is ensured by the European and Asian Departments of Quality as well as by the regular testing of the products - which is usually carried out by specialised and independent international entities.

In addition, the suppliers of the products for hi!dea™ catalogue are in accordance with rules and laws of the countries they operate in, especially with regard to human and employee's rights and to the social and environmental responsibility.

For the elegance of thought

The collection of writing instruments **hi!dea™ design** reflects consistency and harmony, result of persistent and dedicated effort.

Each pen mirrors the profound knowledge of a comprehensive team of professionals.

The perfect combination of details breathes life into each feature of the instrument, enabling the essence of its concept to blossom: create memories that last.

ENJOY THE OLDEST EUROPEAN TEA.

OFFERING GORREANA IS OFFERING HISTORY WITH AROMA.

Founded in 1883 and located in Azores, the Gorreana tea factory is the oldest in Europe. The same family has been managing the planting area of 45 hectares for about 5 generations. Gorreana teas represent a union of taste, health and ecology.

The unique tea plantations of Azores represent the ideal environmental conditions for the organically grown tea, which is 100% free of pesticides, herbicides and fungicides.

Azorean soils are acid and clay what makes Gorreana tea have a fragrant aroma with a strong aftertaste.

Gorreana teas have worldwide recognition and are ranked as some of the best and purest teas in the world.

BLACK TEA

The black tea Pekoe has a very strong and aromatic flavor. It is produced from the plant's second bearing bud. Due to the strong oxidation of *Camelia Sinensis* leaves, this tea displays a reddish and dark color and it also contains antioxidants, neuro-stimulants and caffeine.

GREEN TEA

The spraying process of *Camellia Sinensis* leaves enhances its light and delicate aroma. Being rich in folic acid, vitamin C, K, B1 and B2, this tea has great anti-oxidant and slimming effects, it is also effective in cancer treatments and in anti-aging.

QUALITY PRINTING SERVICES

SCREEN PRINTING

- Screen printing is a printing technique which provides trustworthy and long lasting results. A method of printing designs on a surface by means of a thin cloth on which ink is forced through with a rubber pad. This method may be used on smooth surfaces, printing in high definition even with more than one colour. Recommended for large quantities.

- Used on: note pads, rulers, pill boxes, among other things.

TRANSFER

- This method consists of transferring a printed design on paper onto another surface by means of heat. Enables even results on various types of fabrics and is very economic for multicolour printing on small quantities.

- Used on: aprons, bags, backpacks, non-woven bags, among other things.

TEXTILE PRINTING

- A method similar to silkscreen printing, however optimized to be used on textile.

- Used on: aprons, polar fleece items, non-woven bags, among other things.

EMBROIDERY

- The well-known embroidery technique allows customization on good quality fabrics with great quality and perfection. Embroidery replicates designs with a large variety of colours and distinct lines.

- Used on: towels, blankets, caps, conference bags, clothes, among other things.

SUBLIMATION

- Sublimation transfers a design from paper onto another surface by means of heat. Sublimation has the advantage of being able to be used on concave surfaces, producing well defined designs (ideal for photographic reproduction). It also results in a design highly resistant to extreme temperatures.

- Used on: mugs, among other things.

PAD PRINTING

- This method consists of indirect transfer of ink by means of a mould which has been engraved in low relief. It is the most common method used on small objects such as pens. Due to its versatility, it adapts to curvilinear forms and is the most economical solution for various products.

- Used on: pens, USB flash drives, footballs, among other things.

LASER

- Laser engraving is a precise and long lasting method. The laser beams engrave the design on hard surfaces. Besides metal, it can also be used on wood, leather/PU and glass with exquisite and elegant results.

- Used on: metal pens and key rings, wooden containers, card holders, cork products, among other things.
